A Great Course-Finding Exercise!

- *Use this chart to narrow down which course could be the best fit.
- *Make a list of all the ailments you would like to learn about.
- *Visit the course [SYLLABUS](#) to confirm that you're selecting the best match!

Not Quite Ready for a Course?

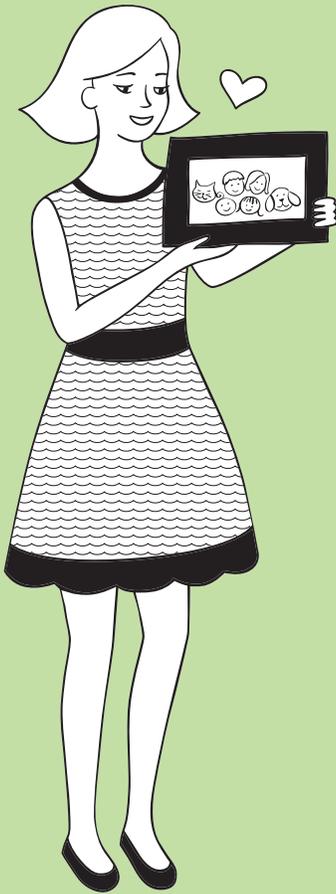

Consider Joette's **GATEWAY TO HOMEOPATHY I** followed by **GATEWAY TO HOMEOPATHY II** Curriculum

It is an excellent first and second step that guides newbies and oldies through Joette's Practical Homeopathy®

Remember! Joette's homeopathic education includes a 4-part outreach:

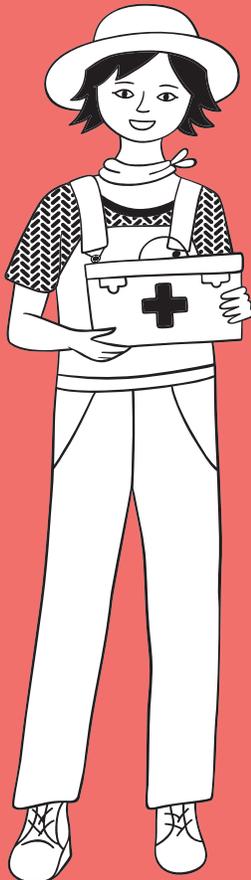

- 1- Free blogs and podcasts
- 2- Gateway to Homeopathy (a primer to homeopathy)
- 3- Take a course taught by Joette and take control of the knowledge
- 4- Joette is available for consultations

DRUG-FREE FAMILY COURSE

Lara is a great candidate for this course! She would like to minimize her use of pharmaceutical drugs using homeopathy for her entire extended family and pets. She is glad to know how to treat normal ear infections, fevers, sore throats, and a myriad of acute illnesses covered in this class. She values personal and family empowerment and values how this course strengthens both. She also is able to give healing tidbits to her friends in her homeschooling group. Yay Lara!

SURVIVALIST GUIDE COURSE

Larissa is fascinated by this guide! It is not Larissa's style to be completely dependent on an emergency room in an unexpected situation. She values preparedness too much! With this course, she gained the on-hand, easy to use information & protocols that can be used in emergency situations. Although Larissa exercises common sense and good judgement, she and her family have already benefited from the food-poisoning protocol, and she even treated their cow's infected surgical wound with information she gained from this guide. Her doubting husband is now ON BOARD!

SKIN, THE UGLY TRUTH

Louisa loves her Skin course. For years she has suffered from terrible psoriasis, and she has seen her grandchildren inherit her tendency for skin issues, as several of them have eczema! Excited to find an alternative to steroid creams and medications, Louisa dove into this course, and loved the “easy as 1-2-3” protocols. Today, she has seen significant improvements in her psoriasis and has already shared a couple of eczema protocols with her grandchildren. Louisa is grateful to pass the powerful knowledge of homeopathy down her family tree!

ALLERGIC!? COURSE

Lucy has struggled with asthma ever since moving into her recently renovated apartment. Her sensitivities don't stop at chemicals, as seasonal changes seem to bother her as well as her new roommate's cat! Hoping for an alternative to a life that is tethered to allergy medications, she signed up for this class. Armed with an easy, straight-forward protocol, her roommate was allowed to keep the cat, but Lucy cured the cat's intolerance to grains!! Lucy is amazed at how springtime has been pleasant, rather than suffering from one miserable sinus infection after another. Way to go Lucy!

GOOD GUT, BAD GUT COURSE

Lena was happy to sign up for this course. Ever since hitting puberty, Lena has been intolerant to milk and other ingredients. Using specific, simple homeopathic protocols, Lena successfully reintroduced milk and is happy to be eating homemade yogurt again. With this course, her bloating has been addressed as well as the chronic diarrhea. She was surprised to learn that some of her other issues—like her anxiety—(which were seemingly unrelated to the gut) have been addressed through this Gut course. Lena has even helped her best friend manage her anxiety too. Awesome job Lena!

FEMINOPATHY COURSE

Leanne struggled with hormonal issues after her 4th baby's birth. The intense mood swings, hot flashes, and insomnia associated with her cycle were particularly overwhelming. Now Leanne has ready-to-go homeopathic protocols which can balance out hormones in both young and not-so-young women. Her daughter's painful menstrual cramps and another daughter's acne are a thing of the past. Indeed, with a house-full of girls, Leanne has found more than one opportunity to use the practical protocols found in the Feminopathy course. That's one mom with Moxie!

THE ANTIBIOTIC ALTERNATIVE COURSE

Leonora is concerned about the side effects of antibiotics. She knows that the first three years of life are crucial for building a strong and diverse gut microbiome and wants her children to have the best possible start in life. Leonora's mom is prone to UTIs but has had bad reactions to antibiotics in the past. Leonora is looking for alternatives so she can help her mother, be prepared for common childhood infections such as strep throat and ear infections, and ready in case she gets mastitis while breastfeeding. **The Antibiotic Alternative is the course that teaches how homeopathy can be used for common everyday bacterial infections, so that antibiotic use can be reserved for truly dangerous**

GATEWAY TO HOMEOPATHY

NOT READY TO BUY A COURSE?

No Problem! Gateway to Homeopathy is a brilliant study guide to Joette's wonderful world of homeopathy. It is often called the 'Study Group Curriculum' because it is especially designed for homeopathic newbies and oldies to get together for 8 sessions and discuss chapter readings. Savvy women who own this curriculum (and who even start their own study group!) are busy bees who value their demanding family schedule. This curriculum jet-launches you into Joette's unique form of homeopathy by: (1) introducing the basic principles of classical homeopathy while comparing it to Joette's practical homeopathy and (2) creating a support group where you can build a strong homeopathic community of like-minded folks. This is truly a great 'first step,' especially if you are not quite ready to take one of Joette's courses. While you can use the curriculum alone, we strongly encourage you to use this curriculum in a group setting, for the diverse experience each member brings to your discussions will enrich your understanding of the material.
